

Continuing the Mission Service Dogs for Veterans NEEDS VOLUNTEER PUPPY RAISERS

To take a Puppy into their home
and their hearts

Are you interested in fostering a CTM Puppy for 12 – 14 months?

We are looking for Individuals willing to open their hearts and homes to a CTM Foster Puppy.

Raising a Future Service Dog is heart-warming, fun and rewarding. Things to consider:

Time Commitment: Puppy raisers teach their puppy basic obedience and take the puppy into the community (church, school events, grocery store) to socialize it to varied situations. Raisers must attend monthly puppy classes on a local training school/campus or with their local volunteer puppy counselor.

Cost: Continuing The Mission supplies the initial crate, collar, leash, and will provide veterinary care for the puppy including heartworm prevention and Flea/Tick control. Puppy raisers are responsible for purchasing food, toys, replacement collars and leashes for their puppy.

The benefits of raising a Future Service Dog include:

Support a veteran

Love and teach a puppy in your home for its first year of life

Share an important volunteer commitment with your family

Fulfill community service requirements for your school / organization

This opportunity is a year-long commitment that allows you to help a Veteran gain independence and safety through partnership with a Service Dog.
